1. Background:

The Fifth Meeting of the Regional Aviation Security and Facilitation Group for Africa and the Indian Ocean Region (RASFALG-AFI) was held in Nairobi, Kenya, from 11 to 12 June, 2018. The meeting was convened according to the approved Terms of Reference of the RASFALG-AFI.

2. Opening Ceremony:

2.1. The opening ceremony was attended by the Regional Director, ICAO Eastern and Southern Africa Region (ESAF) and Secretary of the AFI SECFAL Plan, Mr. Barry Kashambo and the Director of Air Transport of the African Civil Aviation Commission (AFCAC) Mr. Tefera Mekonnen, Tefera.

2.2. Giving his opening address, the Regional Director of ICAO ESAF welcomed all the participants to Nairobi and thanked them for attending the Meeting. He also commended AFCAC for its remarkable coordination in the preparations, hence making the Meeting a reality.

Mr. Kashambo reminded the Meeting on the importance of the establishment of the Regional Aviation Security and Facilitation Group (RASFALG-AFI), under the auspices of AFCAC, emphasizing that this was an important step towards the achievement of the joint AUC, AFCAC and ICAO Agenda on aviation Security and Facilitation in Africa. He pointed out that the Group, being the technical wing of the AFI SECFAL Plan Steering Committee (SC) is an essential tool in identifying regional security and facilitation issues, increasing awareness amongst stakeholders, and also supporting the monitoring and implementation of the AFI SECFAL Plan.

Mr. Kashambo highlighted to the participants that the focus should be for the Group to support States that have challenges in resolving the USAP-CMA findings, and to also provide support to States scheduled for audits and to get involved in the development and implementation of projects through cooperative schemes and sharing of resources.

2.3. In his welcoming remarks, Mr. Tefera, conveyed the sincere appreciation of the AFCAC Interim Secretary General to ICAO and the AFI-SECFAL Secretariat for their respective contributions in the realization of this fifth RASFALG-AFI meeting. He also thanked the participants for their attendance and commitment towards improvement of the effective implementation of International Standards and the Continental targets of the Windhoek Declaration on Aviation Security and Facilitation. The Director informed the meeting on the ongoing modernization of outreach strategies, which include redesigning of the AFCAC website, which will include dedicated platforms to the AFCAC Committees and various Working Groups. He pledged that AFCAC would continue to avail to its member States, technical support based on their respective needs, by optimizing the use of the Team of African Experts under RASFALG-AFI, since its launch. He informed participants, that Member States are reminded of the availability of the team of experts to assist States on specific needs, giving priority to SSeCs for urgent resolution and for pre-and post-audit technical assistances.

3. Participation:

The meeting was attended by fifty one (51) participants from twenty (20) AFI States, one (1) Aviation Security Training Centre ASTC, EASA and three (3) International/Regional Organizations, INTERPOL, AFCAC and ICAO. The list of participants is attached to this report as **attachment 1**.

4. Adoption of the Agenda:

The meeting was chaired by the Vice Chairperson of the RASFALG-AFI, Mr. Redemptus Bugomola, Tanzania Civil Aviation Authority on behalf of the Chairman. Kenya was unanimously elected as Rapporteur of the meeting.

The proposed Agenda was adopted by the Meeting without any amendments. The Agenda is attached to this report as **attachment 2**.

5. Presentations and Discussions:

Seven presentations were delivered during the Meeting, discussed and deliberated upon as below:

5.1 Report on progress made on the Recommendations of the 4th RASFALG-AFI meeting – AFCAC

The Secretariat presented before the Meeting, report on the status of implementation of the recommendations made during the fourth Meeting of the RASFALG-AFI held in Dakar, Senegal, from 30 November to 01 December 2017. The Meeting noted the progress made and commended AFCAC for its efforts.

Following the discussions under this topic, the meeting highlighted the following observations, meant to improve effective communication between States and the RASFALG-AFI Secretariat:

- States were strongly urged to respond to AFCAC State letters.
- States were urged to designate Focal/Contact persons to enhance communication with AFCAC on AVSEC/FAL matters.
- States should endeavour to timely implement AFI SECFAL Plan SC Decisions and Recommendations.
- States should use ICAO DOC 10042 to help them develop and review their National Air Transport Facilitation Programme (NATFP).
- States, which are yet to submit their Questionnaire, to do so and sign the MoU on the use of the Team of Experts of the RASFALG-AFI.
- States are encouraged to make use of AFCAC designated experts for pre-and post-USAP-CMA audits.
- ICAO to share with AFCAC the summarised findings of analysis of the USAP-CMA results on regular basis and inform AFCAC of its planned technical missions to avoid duplication of efforts and optimize resources.

5.2 Report on the 6th AFI-SECFAL Plan Steering Committee meeting and its Resolutions – ICAO

The meeting was briefed on the progress made in the implementation of the AFI-SECFAL Plan and work programme and the decisions and recommendations of the 6th AFI SECFAL Plan Steering Committee meeting which was held in December, 2017, in Montreal, Canada.

The Secretariat highlighted various recommendations and decisions for the attention and onward implementation by the Group.

The Meeting recommended that RASFALG-AFI Work Plan support the implementation of these decisions and recommendations.

5.3 Status of Implementation of the Windhoek Declaration and Targets and related Plan of action developed in 2016 – AFCAC

Under the above-mentioned agenda item, AFCAC presented the matrix of the Windhoek Declarations and Targets, with a view to appreciate the Status of implementation by States, and to highlight notable challenges observed for their deliberations by the Meeting.

AFCAC was then encouraged to establish new mechanisms to improve communication and enhance its assistance and support to States, according to the following priorities:

- **Priority 1: States listed to undergo USAP-CMA audits;**
- **Priority 2: States which have been audited under USAP-CMA, but with low level of Effective implementation and compliance to ICAO SARPs;**
- **Priority 3: States with specific identified deficiencies or which require technical assistance; and**
- **Priority 4: States which have not responded to AFCAC Questionnaires.**

Recommendations:

- A need was also identified to consolidate responses received from States and to develop database to ascertain States' needs respectively;
- It was rendered critical to deploy technical assistance according to States' needs.
- It was observed that the benefits of RASFALG-AFI should be harnessed to include:
 - Effective collaboration with ICAO and partnership with international organizations on capacity building;
 - Regional approach to aviation security and facilitation;
 - Standardization of AVSEC & FAL best practices;
 - Pooling and optimizing of resources;
 - Compliance with Aviation Security and Facilitation SARPs.

The Meeting also discussed among others, Target 11 of the Windhoek Declaration, meant to *“Ensure the inclusion of the INTERPOL Stolen and Lost Travel Document (SLTD) Database screening solutions; Support and encourage the extension of the INTERPOL Secure Global Communication System (I-24/7) beyond National Central Bureau’s (NCB’s) and more importantly to Border Control Points for access and effective use of the SLTD Database”*. ICAO State Letter Ref. EC 6/3 – 17/192 dated 24 July 2018, which is in line with the Windhoek Declaration and Targets 12-14, which states as:

- Target 12 Ensure effective implementation of border control and aviation security requirements of Security Council Resolution 2178 (2014), including the use of Advance Passenger Information (API);
- Target 13 Ensure the inclusion of the INTERPOL Stolen and Lost Travel Document (SLTD) Database screening solutions within the AFI SECFAL Plan;

- Target 14 Support and encourage the extension of the INTERPOL Secure Global Communication System (I-24/7) beyond National Central Bureau's (NCB's) and more importantly to Border Control Points for access and effective use of the SLTD Database.

The meeting noted that African Member States are not adequately providing information to INTERPOL Stolen and Lost Travel Documents database, and many were not utilizing the database available in 192 INTERPOL Member States.

The Meeting recommended as follows:

- INTERPOL should be invited to make presentation at the symposium during the AFI WEEK in Niamey, Niger on 16-20 July, 2018 on the present status of populating and searching the INTERPOL SLTD data base by AFI States as one of the passengers profiling methods.
- Awareness programme to be organized in order to address the shortcoming:
 - At "Regional Level" in form of a workshop by AFCAC/ICAO in collaboration with the INTERPOL, with attendance covering the Police, Immigration, Customs, Intelligence Agencies, etc.;
 - At the "National level" through the National Air Transport Facilitation Committee (NATFC) meetings.

5.4 Presentation of Draft Amendments and Terms of Reference (ToR) of the RASFALG-AFI – AFCAC

- AFCAC presented Draft Amendments to the Terms of Reference (TOR) of the RASFALG-AFI (**Attachment 3**), with a view to improve it, in line with current needs and to align it based on the experiences gained since it was first developed.

- The meeting agreed that notification of RASFALG meetings should be communicated to States at least 2 months in advance to enable adequate preparations.
- Documents for RASFALG AFI meetings should be availed in advance in English and French languages to the extent practicable. However, it was noted that this approach should take into consideration the current challenge of exorbitant cost involved in translating documents.

Resolution:

The meeting adopted the amendments and recommended its submission to the Steering Committee of AFI SECFAL for consideration.

5.5 Presentation by AFI SECFAL secretariat on the preliminary report on current needs and deficiencies based on USAP CMA results analysis - ICAO

Following a request by the 6th SC Meeting that required the SECFAL Plan Secretariat and AFCAC to conduct analysis of USAP-CMA audit results to identify common deficiencies, ICAO made a presentation on the topic which included a proposal on specific remedial actions.

It was observed that reflection of the results from the above-mentioned sources gives a vivid impression that CEs 4, 5, 6, 7 and 8 are the weakest and have a score average below the global EI average of (72.62%). In the AFI Region, the average EI for the five weakest CEs is at 46.07%. This suggests that portions of the “establishment CEs”, i.e. 4 and 5 fall under the category of less fully and ineffectively established provisions within the State’s aviation security oversight system, with the exception of CEs 1, 2 and 3.

However, the implementation CEs 6 through 8 suggests that provisions of Annex 17 are not fully or effectively implemented within the State’s aviation security oversight system

in most of the States. The average EI score, as of May 2018 for the AFI Region was noted to be 56.95% against the global average at 72.20%

The following suggestions were highlighted as key actions to address the findings of the needs analysis:

- Collaborative approach among all team players in the Enhancement of Capacity building;
- Need to establish legislative framework for security aspects of Annexe 9 “Facilitation”;
- Necessity for ASTCs to collaborate with ICAO in development of Training Package for provisions of Annex 9, and to identify critical requirements;
- ASTCS to review current AVSEC Training Packages to address the common needs/deficiencies;
- Encourage States to establish criteria for recruitment of sufficient and qualified aviation security personnel for policy and oversight functions;
- Share resources by engaging experts particularly from States with developed AVSEC Oversight Systems, to assist in improving their AVSEC Systems.

5.6 “Operationalization of the AFI Security & Facilitation Experts Cooperative Scheme” - ICAO

ICAO made a presentation on the operationalization of the AFI Security & Facilitation (Experts) Cooperative Scheme (CIS). It was proposed that a mechanism should be adapted, similar to that of aviation safety (AFI-CIS), whereby a scheme with a pool of experts is established for use by states.

The following three options were suggested, for consideration by the Group and subsequent adoption:

- To see whether aviation Security can build on the AFI-CIS Mechanism in the same framework as it works in Safety;

- Develop a separate scheme, but with similar setup as it operates in Safety, AFI-CIS;
- A peer review Mechanism to support each other, based on sub regional engagements, as it is done by regional bodies like CASSOA.

Resolution:

The Meeting noted the proposal and tasked the AFI SECFAL Plan Secretariat and AFCAC to look into the proposed options to see the best way to adapt the system.

The meeting reviewed and supported the proposal made by the secretariat on the establishment of cooperative experts' scheme and recommended that the AFI SECFAL secretariat and AFCAC review the last two options further and come out with the modalities on how to operationalize the scheme, and report progress to the next RASFALG meeting.

5.7 Review of the Indicative RASFALG-AFI work programme (Remainder of 2018) in line with the approved 2018 AFI SECFAL work programme and recommendations on the way forward – AFCAC

- The meeting was taken through the Work Plan which was already approved by the AFI SECFAL SC, and which included the proposed actions to be taken for the remainder of year 2018, for adoption by the Group. The Work Plan also included 9 remaining Targets of the Windhoek Declaration which were presented to the Group for implementation in the future.
- Information was also provided on the various AVSEC/FAL Action Plans, which require harmonization with GAsEP, for the purpose of standardization.

Resolution:

After deliberations, the meeting supported the presentation.

6. Any Other Business

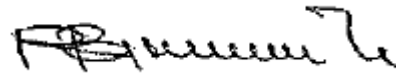

The meeting deliberated on the possibility of convening the RASFALG-AFI meetings together with Workshops/Seminars/other activities under this framework for future considerations.

7. Closing Ceremony

The Chairperson of the 5th RASFALG - AFI meeting declared the meeting closed, in the presence of the Director of Air Transport representing the Interim Secretary General of AFCAC and the Deputy Regional Director of ESAF-ICAO.

Done at Nairobi, 12 June 2018

The Chairman RASFALG-AFI
