Survey of health restrictions during the COVID-19 PANDEMIC

OBJECTIVE OF THIS SURVEY

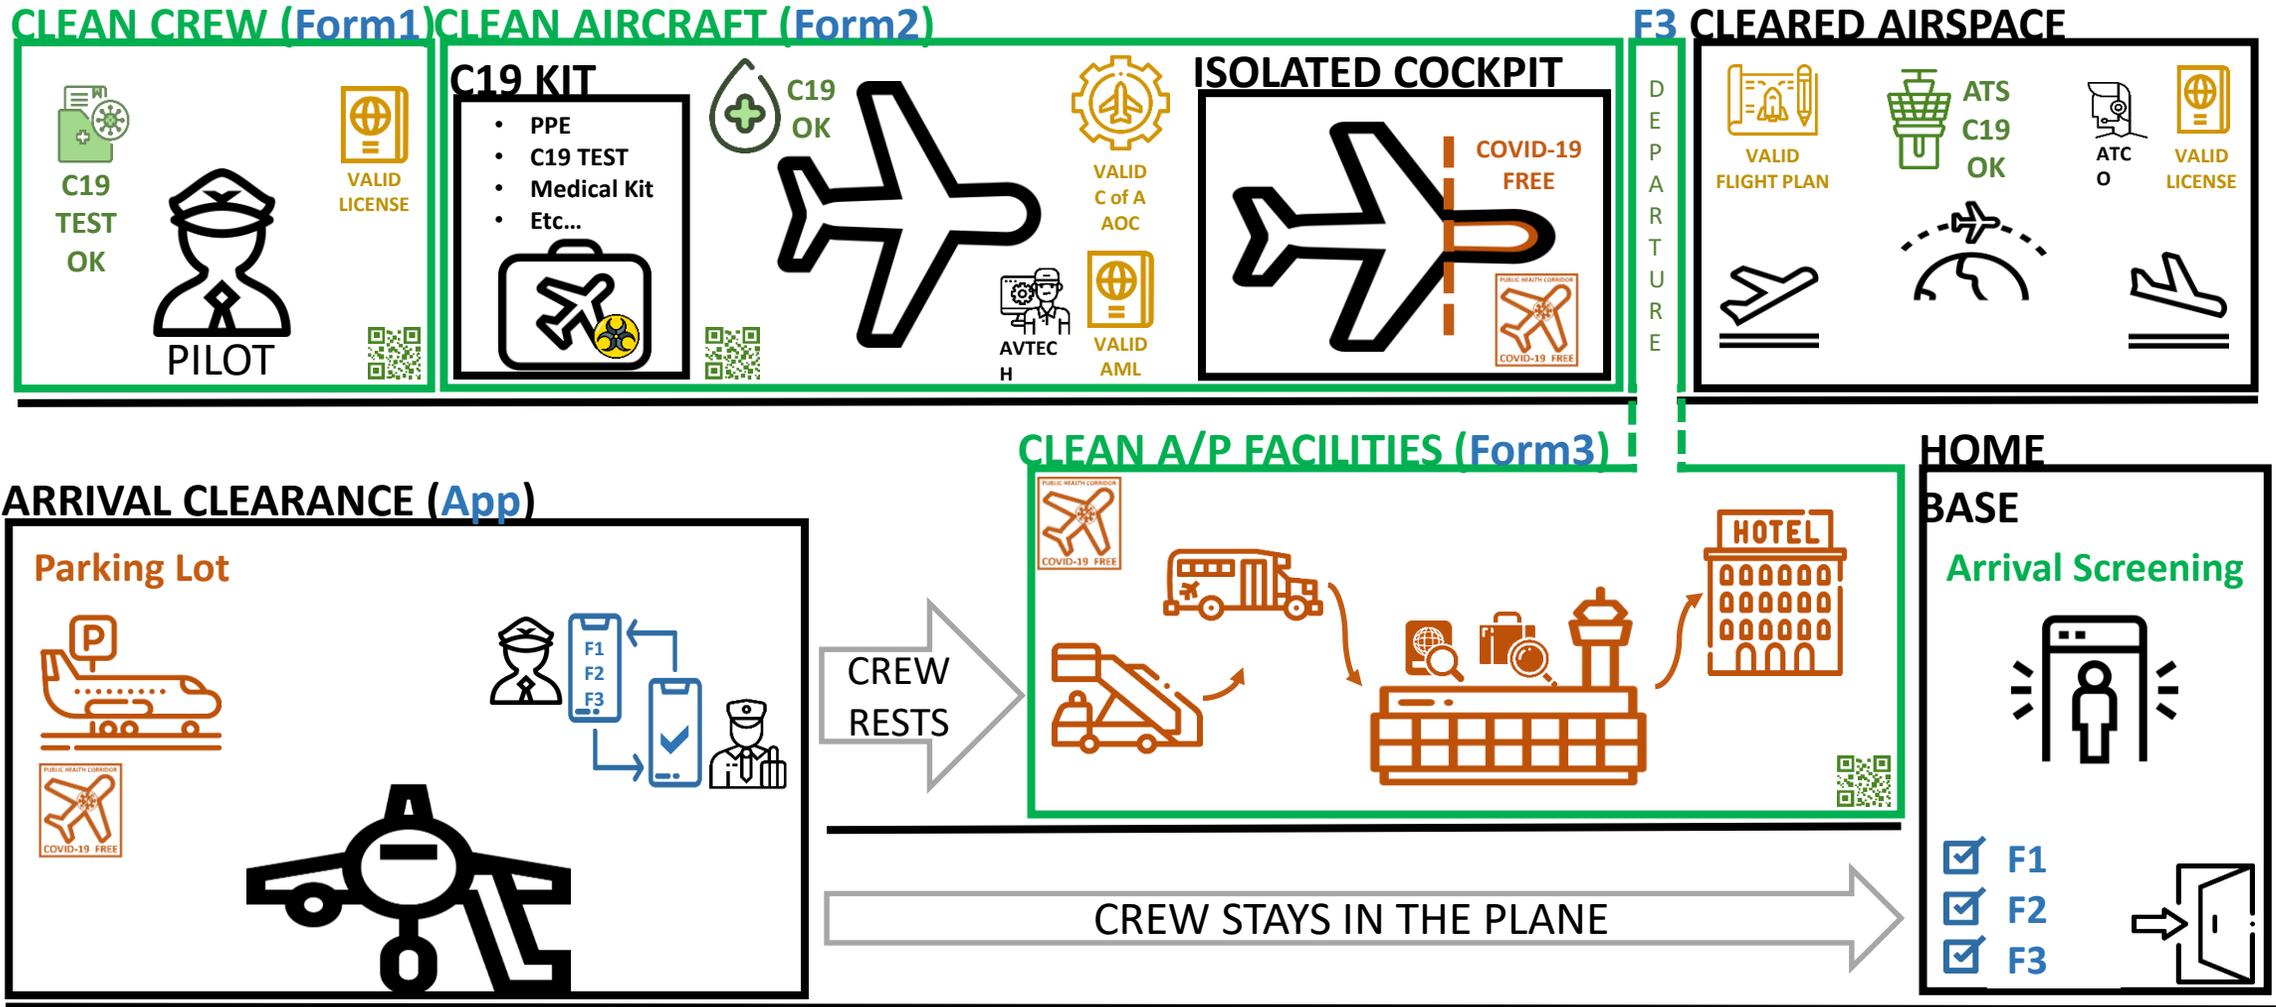

Under the framework of CAPSCA and in order to facilitate the air operations of relief and cargo flights during the COVID-19 pandemic, ICAO is requesting Member States and International Organisations to provide information about the restrictions and procedures in place for relief and cargo flights. The responses to this survey will be used in developing guidance material to ensure the minimum disruption to operations due to the implementation of health measures during the COVID-19 pandemic.

INSTRUCTIONS FOR COMPLETING THE SURVEY

1. The survey is divided into 6 sections:
 - a. Flight exemptions, pre-authorizations and NOTAMs
 - b. Flight crew disembarking and lay-over considerations and procedures
 - c. Health measures and screening procedures upon arrival
 - d. Health measures and screening procedures upon departure
 - e. Health measures onboard aircraft
 - f. Aircraft disinfection and cargo handling

IMPLEMENTING A PUBLIC HEALTH CORRIDOR TO PROTECT CREW AND FACILITATE CARGO OPERATIONS DURING THE COVID-19 PANDEMIC

Presented by the Collaborative Arrangement for the Prevention and Management of Public Health Events in Civil Aviation (CAPSCA)

The current guidance material refers specifically to cargo operations. Further similar guidance addressing humanitarian, repatriation and scheduled passenger flights is under development through CAPSCA and will be consistent with this approach. Such guidance will allow States to implement processes consistently and in accordance with the International Health Regulations (IHR) and ICAO Standards and Recommended Practices (SARPs) relating to airports, on-board procedures, facilitation, and air traffic management and navigation.
