1 Executive Summary

To support the AIS community to achieve a successful AIM Implementation, GroupEAD offers IFAIMA members 50% reduction on catalogue prices on the following training courses.

As a core activity, GroupEAD provides the EAD Service on behalf of EUROCONTROL, the State Aeronautical Information Service on behalf of New Zealand Civil Aviation Authority and procedure design services on behalf of Airways New Zealand. Besides that, GroupEAD is actively supporting Middle East countries with the development of future AIM Solutions; supporting European countries and EUROCONTROL in the implementation of ADQ regulation; and supporting the Asia Pacific countries with the transition from AIS to AIM.

In addition to the Operations, GroupEAD provides a complete set of EAD Training and also a very wide choice of AIM Training courses including AIXM, ADQ, etc. Our clients are worldwide and we can offer the courses in different languages.

IFAIMA is the International Federation of AIM Associations. They are key worldwide promoters of AIM and the only organization promoting a Global AIM event, bringing together representatives of AIM worldwide.

With this training promotion, we want to show the commitment of GroupEAD and IFAIMA to a sustainable and efficient AIM Implementation.

2 Offered Courses

GroupEAD offers 50% reduction on catalogue prices to the IFAIMA Members in the following training courses, subject to number of free seats available at the time of request and conditions described under section 3 of this offer:

2.1 AIXM 5.1 Basic:

From 29th September to 03rd of October. **Free seats: 3.** The participant will be able:

1. To explain the AICM/AIXM principles and benefits.
2. To list the differences and relationships between AICM, AIXM, Static Database and their applicable respective rules.
3. To read, understand, update, correct and process AIXM messages (Update and Snapshot).
4. To detect and correct errors in an AIXM-Update file using XML Spy.

Price per student: **875€**

2.2 AIXM 5.1 Advanced:

From 06th to 10th of October. **Free seats: 6.** The participant will be able:

1. To study the AIXM 5.1 UML Model
2. To introduce the basics of XML
3. To introduce the basics of GML
4. To analyse AIXM 5.1 requirements and approach
5. To study the AIXM 5.1 XML Model/Schema
6. To introduce the Digital NOTAM concepts.

Price per student: **875€**

2.3 Quality Assurance Basic:

From 13th to 15th of October. **Free seats: 6**

Participants will be able to apply Data Quality Assurance principles and procedures related to aeronautical data.

Price per student: **525€**

2.4 AIXM 4.5 Basic:

From 03rd to 07th of November. **Free seats: 6**. The participant will be able:

1. To create, edit and export to CSV a basic database using Excel.
2. To map data from CSV files, Databases and Snapshot to XML (AIXM-Update) using MapForce,
3. To edit, validate and correct AIXM-Update files using Altova Spy.
4. To check, understand and take the appropriate actions of level A errors from SDO Upload Status Report.

Price per student: **875€**

2.5 AIXM 4.5 Advanced:

From 10th to 14th of November. **Free seats: 6**. The participant will be able:

1. To create, edit and export to CSV a basic database using Excel.
2. To map data from CSV files, Databases and Snapshot to XML (AIXM-Update) using MapForce,
3. To edit, validate and correct AIXM-Update files using Altova Spy.
4. To check and understand level A errors from SDO Upload Status Report.

Price per student: **875€**

2.6 AIS to AIM and SWIM:

From 03rd to 07th of November. **Free seats: 4**.

After this training course, the participant will know today's evolution from AIS to AIM main concepts and the way towards SWIM. The participant will be able to introduce in his/her organisation the main AIS developments that need to be implemented in order to achieve AIM and to head towards SWIM.

Price per student: **1.125€**

2.7 Quality Assurance Advanced:

From 10th to 14th of November. **Free seats: 4**

After this training course, participants will be able to apply Data Quality Assurance principles and procedures related to aeronautical data management.

The course covers Data Quality Assurance regulation and concepts, quality assurance methodology and guidelines for implementing quality assurance procedures, including definition of sampling plan, definition of reviews and error classification.

The course introduces as well the concept of Aeronautical Information Data Chain and its effect on quality of data. The participants will have an overview on Data Origination and Survey and will be able to explain how the aeronautical data is handled before arriving to the ANSP, being able to recognize all applicable requirements applicable to this process.

Price per student: **1.125€**

2.8 Introduction to AICM and AIXM:

From 17th to 21st of November. **Free seats: 4**

After this training course, the participants will be able to explain the AICM/UML/AIXM principles and benefits. They will differentiate the relationships between AICM, UML, AIXM, the Static Database and their applicable respective rules.

In this overview, the participants will be able to work with the AIXM 5.1 UML Model and the basics of XML and GML. They will also list the AIXM 5.1 requirements of the Roadmap from AIS to AIM and have an approach to the AIXM 5.1 XML Model/Schema. Furthermore, they will explain the Digital NOTAM concepts.

Price per student: **1.125€**

3 Conditions

This offer is valid under the following conditions:

3.1 Validity of the Offer:

The validity of this offer is subject to the number of free places available at GroupEAD Training courses.

The offers for each training course are valid until the starting date of the requested course/s or until there are no free seats available, whichever applies first.

3.2 Number of Students per Organisation:

The number of trainees per organisation is limited to 2 (two) per training course. In case one organisation wants to contract a training course for more than 2 trainees, standard training course price will apply for the third trainee onwards (subject to free seats available).

3.3 Training Requests:

For more information about GroupEAD training courses or to formally request one or more seats on any of these training courses, please refer directly to GroupEAD, either via email or telephone:
