

Development of an Airport Emergency Plan for Public Health Events.

1. What is Annex 14?
2. What emergencies does it address in addition to those of public health?
3. Is it necessary for there to be a separate public health emergency airport plan (separate from the aerodrome emergency plan)
4. Which global entity requires an aerodrome/airport to have an emergency plan?
5. Which entity oversees its contents?
6. Which entity issues an aerodrome certificate for those aerodromes that are in compliance with the ICAO Standards and Recommended Practice?
7. What is the advantage of having an aerodrome public health emergency plan
8. Who has responsibility for activities on an airport in response to a public health event?
9. In developing an aerodrome emergency plan, which entities need to be involved?
10. With the arrival of an affected aircraft, where should it be parked?
11. Is there a need to have an SOP for the arrival of an arriving affected aircraft?
