

AFI Air Navigation Deficiencies Workshop

AFI Air Navigation Deficiencies Database – AANDD

Dakar/ November 2021

Outline

- Introduction
- Access to the system
- Reporting deficiencies
- Resolving deficiencies
- Actions by the State
- Reporting to APIRG

Introduction

- In order to support the implementation of the **Uniform Methodology** for the identification, assessment and reporting of **deficiencies**, it has been established for the AFI Region, a **web-based platform**, the AFI Air Navigation Deficiencies Database (**AANDD**).
- The AANDD application provides an online tool for **States** and relevant **stakeholders** to manage air navigation deficiencies in the region. The application will be accessible through the link: <https://aandd.icao.int> for operational use.
- The training version is at the link: <https://aandd-training.eddimas.com>

Access to the system - Users

- The following users can have access to the system, provided they were nominated by their Administration/Organization:
 - ICAO Regional Offices users,
 - States users (Focal points and DGCA),
 - Users Organizations Focal points,
 - Professional Organizations Focal points.
- User must authenticate through a valid user account.

Access to the system - Login

- **Login** with your email and password
- Were you nominated an Administration/Organization and you still don't have a user account in the system, then **Sign up**, and wait for the activation of your account by the system administrator.
- Did you forget your password, click on "**Forgot password?**" to reset it.

LOGIN

Welcome to the Afi air navigation deficiencies database - AANDD

Access to the system – Application page

Access to the system – User profile

- The application is in **English** and **French**. To change the display language, click either on the **Top avatar** or on the **Left avatar**.
- The **user name** is displayed in front of the **Left avatar**. To change it, expand one of the avatar menus and click on the item Profile.
- To change your **password**, expand one of the avatar menus and click on the item *Password*.

Actions by the State – Corrective actions

- State Focal point **should provide corrective actions** to the deficiency. From the List of deficiencies, when a **deficiency is selected**, its corrective actions display.

0002-DF-AGA	Burkina Faso	AOP - Aerodrome Master Plan	Annex 14 - Vol 1, Chapter 1 PANS- Aerodromes, Part 1, 2	Test report deficiency 2	This is a test report deficiency 2	A	Approved	18-05-2021
0001-DF-AGA	Burkina Faso	AOP - Aerodrome Master Plan	Annex 14 - Vol 1, Chapter 1 PANS- Aerodromes, Part 1, 2	Test report deficiency	This is a test report deficiency	A	Approved	20-05-2021

Corrective actions			
Action description	Responsible body	Priority	Date completion
Correct deficiency	ANSP	U	30-06-2021
Correct deficiency	Aerodrome operator	U	30-06-2021

Actions by the State – Corrective actions

- Corrective actions are **created**, **updated** or **deleted** from the **Details** of deficiency:
 - **Select** the deficiency and click on the button [**Details**]
 - Go to the section “**Corrective actions**” and click on the button  to **add** an action,
 - Select an action and click on the button  to **update** it or the button  to **delete** it.

Corrective actions						
Number	Action description	Responsible body	Priority	Date completion	Status	Remarks
0001-DF-AGA-A01	Correct deficiency	ANSP	U	30-06-2021	Planned	Correct deficiency
0001-DF-AGA-A02	Correct deficiency	Aerodrome operator	U	30-06-2021	Planned	Take urgent measures to correct deficiency

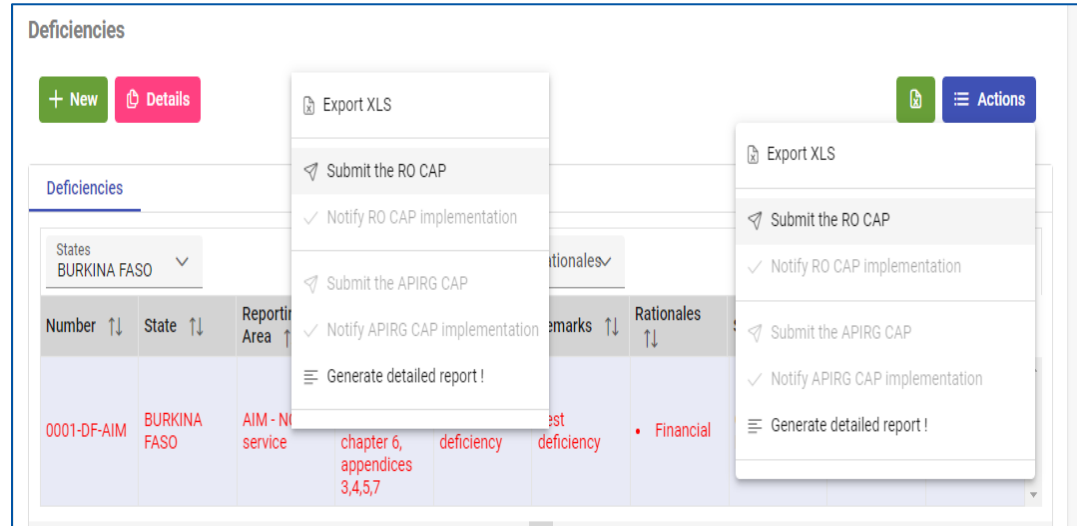

Actions by the State – Action plan submission

- Once all corrective actions are created in the system, as well as supporting files attached, the action plan should be submitted:

- Select the deficiency
- From the context menu or the menu under the button [Actions], click on item “**Submit the RO CAP**” or “**Submit the APIRG CAP**”

- Regional Office Committee to **validate** the plan, if acceptable

The screenshot displays the 'Deficiencies' management interface. At the top, there are buttons for '+ New' and 'Details'. Below this is a table with columns: Number, State, Reporting Area, Remarks, and Rationales. A dropdown menu is open over the first row, showing options: 'Export XLS', 'Submit the RO CAP', 'Notify RO CAP implementation', 'Submit the APIRG CAP', 'Notify APIRG CAP implementation', and 'Generate detailed report!'. Another 'Actions' button is visible on the right, with its own dropdown menu showing similar options. The first row in the table has the following data: Number: 0001-DF-AIM, State: BURKINA FASO, Reporting Area: AIM - Navigation service, Remarks: chapter 6, appendices 3,4,5,7, deficiency, deficiency, Rationales: Financial.

Actions by the State – Action plan implementation

- After the **corrective action plan** has been **validated** by the ICAO Regional Office Committee, State should **implement** it and **submit** the evidences as follows:
- Update the implementation status of each corrective action
- Upload evidences as attachments to the deficiency

Update corrective action

Action number 0001-DF-AIM-A01	Responsible body ANSP	Due date 20-11-2021	Status Action compl... 	Date completion 20-11-2021

Description
Test corrective action

Select

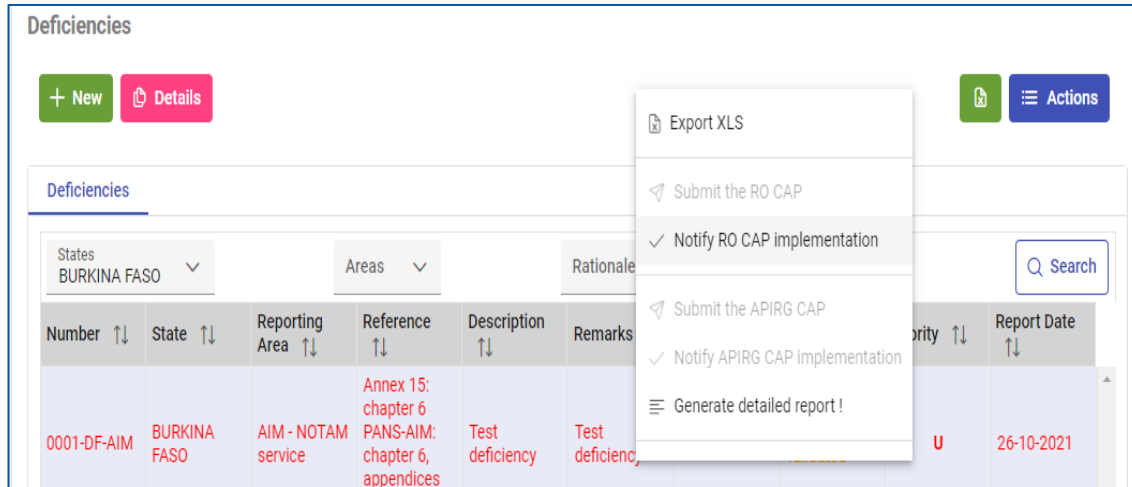

Action planned

Action completed

Actions by the State – Action plan implementation

- Notify the completion of the action plan implementation
 - Select the deficiency
 - From the context menu or the menu under the button [Actions], click on item “**Notify RO CAP implementation**” or “**Notify APIRG CAP implementation**”
- Regional Office Committee to **review evidences**, and close deficiency, if satisfactory

The screenshot displays the 'Deficiencies' management interface. At the top, there are buttons for '+ New' and 'Details'. A search bar is visible on the right. Below the search bar, there are dropdown menus for 'States' (set to BURKINA FASO) and 'Areas'. A table of deficiencies is shown with columns for Number, State, Reporting Area, Reference, Description, Remarks, Priority, and Report Date. A context menu is open over the first row, showing options: 'Export XLS', 'Submit the RO CAP', 'Notify RO CAP implementation', 'Submit the APIRG CAP', 'Notify APIRG CAP implementation', and 'Generate detailed report!'. The first row in the table has the following data: Number: 0001-DF-AIM, State: BURKINA FASO, Reporting Area: AIM - NOTAM service, Reference: Annex 15: chapter 6 PANS-AIM: chapter 6, appendices, Description: Test deficiency, Remarks: Test deficiency, Priority: U, Report Date: 26-10-2021.

Number	State	Reporting Area	Reference	Description	Remarks	Priority	Report Date
0001-DF-AIM	BURKINA FASO	AIM - NOTAM service	Annex 15: chapter 6 PANS-AIM: chapter 6, appendices	Test deficiency	Test deficiency	U	26-10-2021

Reporting to APIRG – Unresolved deficiencies

- When a deficiency confirmed by the ICAO Regional Office Committee was **not timely resolved**, through the normal process, it will be **reported to APIRG** for review.
- The status of the deficiency is marked as unresolved.
- The State is notified that the **deficiency is still unresolved** and should be **discussed** at the **APIRG meeting**.
- If APIRG endorses the deficiency, the State is notified and urged to submit action plan.

Reporting to APIRG – Closed deficiencies

- If corrective actions are taken in time to resolve a deficiency, the case is closed and captured in the AANDD.
- The APIRG meeting is informed of the closed deficiencies.
- The monitoring process of a given deficiency ends after its closure has been reported to the APIRG meeting.
