ASIAP Prioritisation of States and Areas for Technical Assistance

Michiel Vreedenburgh

*Chief, Implementation Planning and Support – Safety
Air Navigation Bureau*

23 January 2017

Safety Margin Priorities

- **Safety Margin (SM)**: value above or below target USOAP effective implementation (EI) which is based on a global linear regression of air traffic versus EI of all audited States
- States with negative SM (below target EI) and category EI < 80%
- Top 5 States per Regional Office and technical area
- **SSC States** are also highlighted

SSC State

World Governance Indicators Consideration

- **Worldwide Governance Indicators (WGI)** provided by the World Bank report the political stability and control of corruption for States
- Standard normal units ranging from -2.5 to 2.5
- States with below average WGI of **less than -0.75 (2015)** are highlighted

◆ Low Political Stability

◎ High Corruption Concerns

Gross Domestic Product Considerations

- **Gross Domestic Product (GDP) per capita** indicates a State's resource capability to develop its infrastructure
- States with GDP per capita greater than US\$10,000 (2015 average) are highlighted

High GDP Per Capita
