Briefing on

ICAO Implementation Packages (iPacks)

to the

**The Aviation Safety
Implementation Assistance Partnership (ASIAP) Meeting**

Wednesday 2 December 2020

What is an Implementation Package (iPack)

An Implementation Package (iPack) is a self-contained package composed of the relevant:

- **guidance material**, *including ICAO Annexes, Documents, Circulars, best-practices papers or other associated guidance material;*

- **standardized training**, *including standardized and competency based trainings, in classroom, online or virtual formats;*

- **tools**, *including data-driven application, online reporting systems, electronic management systems or questionnaire/surveys;*

- **subject matter expertise**, *including the provision of expert(s) to achieve iPack objectives; and*

- **guidance for procurement**, *with regards to the purchase of infrastructure or equipment.*
Expected Outcomes of an iPack

Facilitate alignment with measures and recommendations contained in the Council Aviation Recovery Task Force (CART) Report, by:

- **Providing support for States** in their aviation restart, recovery and resilience efforts as well as re-engagement with industry;

- **Applying the most up-to-date** ICAO provisions and other international requirements and guidance related to public health and other relevant topics; and

- **Providing an "all-in-one"** and user-friendly bundle of implementation support.

Available iPacks

Upcoming iPack: Public Health Corridor

GOAL

Restore international travel through the implementation of Public Health Corridors by supporting Civil Aviation Authorities (CAAs) in sharing information, applying mutually accepted public health measures and concluding bilateral or multilateral agreements.

Target Audience:

- **Civil Aviation Authorities; and/or**

- **Public Health Authorities;**

- **Other relevant national authorities e.g. Customs and Immigration; Aerodrome Operators;**

- **Aircraft Operators; and**

- **Other relevant service providers.**
