PHC template to be completed by Arrival State based on current state practices and requirements. Can be used as a guide for bilateral/ multilateral discussion between States	
General border restrictions	**Description**
State wide applicability	
Regional differences within States	
Travelers from States not allowed entry - based on nationality or residence	
Travelers from States not allowed entry - based on State of origin or transit	
Travelers from States allowed free entry - based on nationality or residence	
Travelers from States allowed free entry - based on State of origin or transit	
Period of uninterrupted stay required prior to travel (travel history)	
Travelers from States requiring pre-travel clearance	
Specific categories of passengers excluded from entry based on visa, residency or work permit requirements	
Specific categories of passengers excluded from entry based on occupation category, exposure profile etc.	
Other considerations	
Accepted travel purpose - refer to priority travel assessment checklist	**Description**
All flights regardless of travel purpose	
Essential cargo flights	
Repatriation flights - SL 20/55	
Relief flights - Annex 9	
Medical emergency flights	
Travel of essential or key personnel	
Flights requiring technical stops e.g. refuelling of air ambulance flights	
Technical aviation flights e.g. aircraft maintenance, ferry flights, etc.	
Seafarer change-over flights	
Business flights supporting essential services in other sectors	
Other flights supporting essential services in other sectors	
Tourism flights supporting the economy	
Other considerations	
Accepted travel routes	**Description**
All travel routes	
Specific States only	
Specific regions within a State	
Specific city-pairs	
Direct flights only	
Connecting, transit or through flights	

One way and/or return flights	
Route frequency specifications	
Flight capacity specifications	
Other considerations	
Data sharing	**Description**
Procedure to share complete and accurate data in a transparent manner	
Agreed procedure for sharing data between states	
Agreed frequency of sharing of data, including any updated changes on short notice	
Procedure to distribute data to stakeholders and passengers	
Possible mechanisms to share data - AIP, NOTAM, Timatic, web applications, etc.	
Type of data to be shared	
Pre-departure requirements - refer to refer to CART TOGD, PHC guidance (SL and EBs) and PHC checklists for more details	
Pre-departure documentation - as applicable	**Description**
Specific departure documentation to be made available by departure State upon request	
Specific entry documentation required by arrival state that needs to be confirmed prior to departure	
PHC Form 1: Crew COVID-19 Status Card	
PHC Form 2: Aircraft COVID-19 disinfection control sheet	
PHC Form 3: Airport COVID-19 Cleaning/ disinfection Control Sheet	
PHC Form 4: Public Health COVID-19 Passenger Self Declaration Form	
Other health declaration/ health attestation forms	
COVID-19 Test result form	
Travel history record	
Vaccination certificate (future)	
Relevant state travel App e.g. containing questionnaires, other data	
Completion of forms e.g. PLF by passengers and submitted to arrival state government portal	
Other documents	
Pre-departure testing - if required (Refer to testing checklist)	**Description**
Who should be tested?	
When should testing be done?	
Which tests are accepted for use?	
Who will be assessing the results?	
Who and how will positive test results be managed?	

In which language should test reports be available?	
What information should be included in the report as a minimum?	
Which test report formats will be acceptable - paper, electronic, QR code?	
Who will be responsible for cost?	
Other considerations	
Pre departure vaccination - if required	**Description**
Which vaccines are accepted by the arrival state?	
In which language should the certificate be available?	
What is the period of validity accepted by the arrival state?	
Who will be confirming the validity of the certificate in the departure state?	
Who and how will unacceptable vaccination certificates be managed?	
Other considerations	
Departure airport mitigation measures required (Multilayer risk checklist)	**Description**
Level of CART implementation by airports included in the PHC	
Airport assessment report - State, ACI or other oversight body	
Minimum or non-negotiable mitigation measures required	
Acceptability of mitigation measures that haven't been implemented	
Other considerations	
Aircraft-specific mitigation measures required (Multilayer risk checklist)	**Description**
Level of CART implementation by aircraft operators included in the PHC	
Aircraft-operator assessment report - State, IATA or other oversight body	
IATA aircraft operator self-assessment report	
Minimum or non-negotiable mitigation measures required	
Acceptability of mitigation measures that haven't been implemented	
Other considerations	
Crew-specific mitigation measures required (Multilayer risk checklist)	**Description**
Minimum or non-negotiable mitigation measures required	
Exemptions applicable to crew in departure state	
Acceptability of applicable exemption measures by arrival state	
Acceptability of other mitigation measures that haven't been implemented	
Other considerations	
Passenger-specific mitigation measures required (Multilayer risk checklist)	**Description**
Minimum or non-negotiable mitigation measures required	
Exemptions applicable to passengers in departure state	
Acceptability of applicable exemption measures by arrival state	
Acceptability of other mitigation measures that haven't been implemented	

Other considerations	
Cargo-specific mitigation measures required (Multilayer risk checklist)	**Description**
Level of CART implementation applicable to cargo management in the departure state	
Minimum or non-negotiable mitigation measures required	
Acceptability of mitigation measures that haven't been implemented	
Other considerations	
Upon arrival requirements refer to refer to CART TOGD, PHC guidance (SL and EBs) and PHC checklists for more details	
Upon arrival testing - if required (Testing checklist)	**Description**
Who should be tested?	
When should testing be done?	
Which tests are accepted for use?	
Who will be assessing the results?	
Who and how will positive test results be managed?	
True positive test results must be reported to the public health authority for contact tracing purposes	
In which language should test reports be available?	
What information should be included in the report as a minimum?	
Which test report formats will be acceptable - paper, electronic, QR code?	
Who will be responsible for cost?	
Other considerations	
Upon arrival quarantine requirements	**Description**
Self-monitoring required for all travelers (WHO recommendation)	
Isolation or quarantine required for all travelers - specify	
Isolation or quarantine required only for passengers with confirmed test or COVID-19 contacts - specify	
Period of self-monitoring, isolation or quarantine - specify	
Duration of self monitoring, isolation or quarantine - specify	
Place of self-monitoring, isolation or quarantine - specify	
Specific requirements during self monitoring, isolation or quarantine	
Requirements for releasing from self isolation, isolation or quarantine
