SUMMARY

This paper proposes changes to the Technical Instructions to align with the UN Recommendations On The Transport Of Dangerous Goods.

Action by the DGP is in paragraph 2.

1. INTRODUCTION

1.1 The DGP Working Group of the Whole Meeting in Memphis, Tennessee (WG07) was advised that several references within the Technical Instructions reflected out-of-date ISO Standards ([DGP-WG/07-WP/40](#)). Further review of those references has identified that in a small number of instances, the Technical Instructions is not aligned with the UN Recommendations. It is suggested that this should be corrected.
