### TWENTY-THIRD MEETING

Montréal, 11 to 21 October 2011

#### Agenda Item 2: Development of recommendations for amendments to the *Technical Instructions for the Safe Transport of Dangerous Goods by Air* (Doc 9284) for incorporation in the 2013-2014 Edition

#### UN3077 ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S.

(Presented by G. A. Leach)

#### 摘要

本工作文件建议对技术细则表3-1的联合国3077：危害环境的固体物质，未另作规定的每个包装件最大净量进行澄清。

危险物品专家组的行动：请危险物品专家组按照本工作文件附录所示修改表3-1。

## 1. INTRODUCTION

1.1 The 2011-2012 Edition of the Technical Instructions was amended to permit the use of intermediate bulk containers (IBCs) for the transport of UN 3077, **Environmentally hazardous substance, solid, n.o.s.** only and Packing Instruction 956 was duly amended.

1.2 In the United Kingdom, it has been pointed out that the above change was not reflected in columns 11 and 13 of Table 3-1 of the Technical Instructions and consequently some companies are unaware that they are now permitted to use IBCs for UN 3077. It is suggested that given the explanations of columns 11 and 13 it is misleading to continue to state “400 kg” as being the maximum net quantity per package (on both passenger and cargo aircraft) for UN 3077 and it would be more accurate to replace this figure with 1000 kg.
