

DANGEROUS GOODS PANEL (DGP) WORKING GROUP MEETING

Virtual Meeting, 24 to 28 May 2021

Agenda Item 2: Managing air-specific safety risks and identifying anomalies

2.2: Develop proposals, if necessary, for amendments to the *Technical Instructions for* the Safe Transport of Dangerous Goods by Air (Doc 9284) for incorporation in the 2023-2024 Edition

REVISIONS TO THE EXCEPTED QUANTITY CODE E0

(Presented by P. Guo)

SUMMARY

This working paper proposes revisions to the excepted quantity codes in Table 3-1 for the sake of consistency.

Action by the DGP-WG is in paragraph 2.

1. **INTRODUCTION**

- 1.1 The provisions for excepted quantities have become more concise and clear since the excepted quantity codes E0 through E5 were added to the Dangerous Goods List (Table 3-1) of the Technical Instructions. However, some inconsistencies have been identified.
- 1.2 Dangerous goods that are forbidden on both passenger and cargo aircraft are obviously not to be transported as an excepted quantity, so they are not assigned E0 in the *Technical Instructions for the Safe Transport of Dangerous Goods by Air.* For example:

However, some dangerous goods that are prohibited for passenger and cargo aircraft are still assigned E0, such as UN 2381, UN 3048, UN 3094, UN 3098, UN 3509, UN 3512, UN 3514-UN 3526, UN 3533, UN 3534, and UN 3536.

1.3 UN 0501 — **Propellant, solid** and UN 0509 — **Powder, smokeless** are explosives which are forbidden on passenger aircraft and only permitted for transport on cargo aircraft. Explosives are not permitted for transport as an excepted quantity, but UN 0501 and UN 0509 are not assigned E0.

2. **ACTION BY THE DGP-WG**

2.1 The DGP-WG is invited to amend Table 3-1 as shown in the appendix to this working paper.:
