

**DANGEROUS GOODS PANEL (DGP)  
MEETING OF THE WORKING GROUP OF THE WHOLE**

**Atlantic City, United States, 4 to 8 April 2011**

**Agenda Item 3: Development of recommendations for amendments to the *Supplement to the Technical Instructions for the Safe Transport of Dangerous Goods by Air* (Doc 9284SU) for incorporation in the 2013-2014 Edition**

**SEPARATION OF EXPLOSIVES**

(Presented by Adrian Tušek)

The attached table regarding the “Separation requirements” for dangerous goods and other cargo is provided for information and is related to the IATA Dangerous Goods Regulations.

The table covers explosives permitted on cargo aircraft only as well those permitted on passenger aircraft.

Feedback on errors would be greatly appreciated.

DGP-WG/11–WP/52 is also relevant to this information paper.

If the working group believes a visual depiction of this type would benefit users of the Technical Instructions then I am willing to prepare a Technical Instruction- relevant version for the next meeting.

**SEGREGATION REQUIREMENTS**

This table must be read and used in conjunction with the IATA Dangerous Goods Regulations

- Minimum separation distance as specified by IATA Regulations
- Shall not be loaded in close proximity of one another
- Refer to IATA Dangerous Goods Regulations 9.3.2.2
- Must not be stowed in the same compartment, unless loaded in ULD's not adjacent to one another or in closed ULD's
- This segregation requirement applies only to laboratory animals and to animals which are natural enemies
