

DANGEROUS GOODS PANEL (DGP) MEETING OF THE WORKING GROUP OF THE WHOLE

Montréal, 15 to 19 October 2012

Agenda Item 2: Development of recommendations for amendments to the *Technical Instructions for the Safe Transport of Dangerous Goods by Air* (Doc 9284) for incorporation in the 2015-2016 Edition

INDEX TO THE TECHNICAL INSTRUCTIONS

(Presented by A. Tušek)

SUMMARY

Using the index to the Technical Instructions provides one of the easiest methods for locating specific information.

Members of the DGP are asked to keep in mind that where they find items in the Technical Instructions that they refer to regularly are not able to be found using the index it helps other users if these are included.

Action by the DGP-WG is in paragraph 2.

1. INTRODUCTION

1.1 The index to the Technical Instructions is a very handy resource for locating specific requirements. There is a need to ensure that the index makes the document user friendly and includes common items.

1.2 I have recently submitted the following items to the Secretariat for consideration of inclusion in the index to assist. Users of the Technical Instructions often have trouble locating the information listed.

2. **ACTION BY THE DGP**

2.1 The DGP is invited to consider the index to the Technical Instructions and to submit to the Secretariat items that would make the index more user friendly as shown in the appendix to this information paper.

APPENDIX

PROPOSED AMENDMENT TO THE INDEX OF THE TECHNICAL INSTRUCTIONS

INDEX

	<i>Part</i>	<i>Paragraph</i>
...		
Handling Labels		
"Cargo Aircraft Only" Label	5	3.2.12 a)
