Financial support or in-kind resources are essential to driving continued progress on global aviation safety targets – especially in least developed nations. ICAO coordinates assistance to States for safety project and programme implementation, supported by a global Safety Fund (SAFE) that manages voluntary contributions from donors.

If your State or donor organization wishes to assist ICAO and the aviation community to address serious safety deficiencies in States in need, please visit the SAFE website today or contact ICAO via the details provided below. No matter how large or how small your intended contribution, it’s never too late to make safety your priority.
