

International Civil Aviation Organization

Association of African Aviation Organizations Conference

Nairobi, Kenya, 02-04 April 2012

Report on the status of aviation training needs and resources in Africa

*Maamoune Chakira, Regional Officer, AFI
Comprehensive Regional Plan for aviation
safety in Africa, ICAO Eastern & Southern
Africa (ESAF)*

icao@icao.unon.org

Outline

- Initial Survey
- Update on the status of aviation training needs and resources in Africa
- Pan African Aviation Training Coordination Conferences

Survey – training needs and available capacity

- Africa-wide survey on training need analysis and available capacity based on Two sets of questionnaires, aimed at
 - *Training Organizations to assess training resources, and*
 - *States and Aviation Services providers to assess training needs; were sent out*
- Additional qualitative information collected through site-visits to selected States and training organizations

Survey – training needs and available capacity

- Training needs

- Questionnaire aimed at four categories of Organizations
 - *Regulators*
 - *Air Navigation Services Providers*
 - *Airlines*
 - *Airports Operators*
 - *Aircraft Maintenance Organizations*
- Recognized that Aviation organizations in Africa may fall in one or more of the above categories

Survey – training needs and available capacity

- Questionnaire objectives
 - For key specialists skills/jobs/functions, assess
 - *levels of staffing*
 - *current and forecasted demand of training*
 - Identify Sources of Training
 - *internal*
 - *external*
 - Organization information related to human resources
 - *ownership*
 - *human resources and training plan*
 - *language(s) used for training*
 - *recruitment and sources of training personnel*

Survey – training needs and available capacity

- Questionnaire objectives
 - Identify capabilities of the Training Organization
 - *Instructors*
 - *Accreditations*
 - *Quality Management*
 - Identify existing structures for managing training
 - *Development of courses syllabi*
 - *Examinations Management*

Survey – training needs and available capacity

- Training resources

- Questionnaire aimed at four categories of Organizations

- *Regulators*

- *Air Navigation Services Providers*

- *Airlines*

- *Airports Operators*

- *Aircraft Maintenance Organizations*

- Recognized that Aviation organizations in Africa may fall in one or more of the above categories

Survey – training needs and available capacity

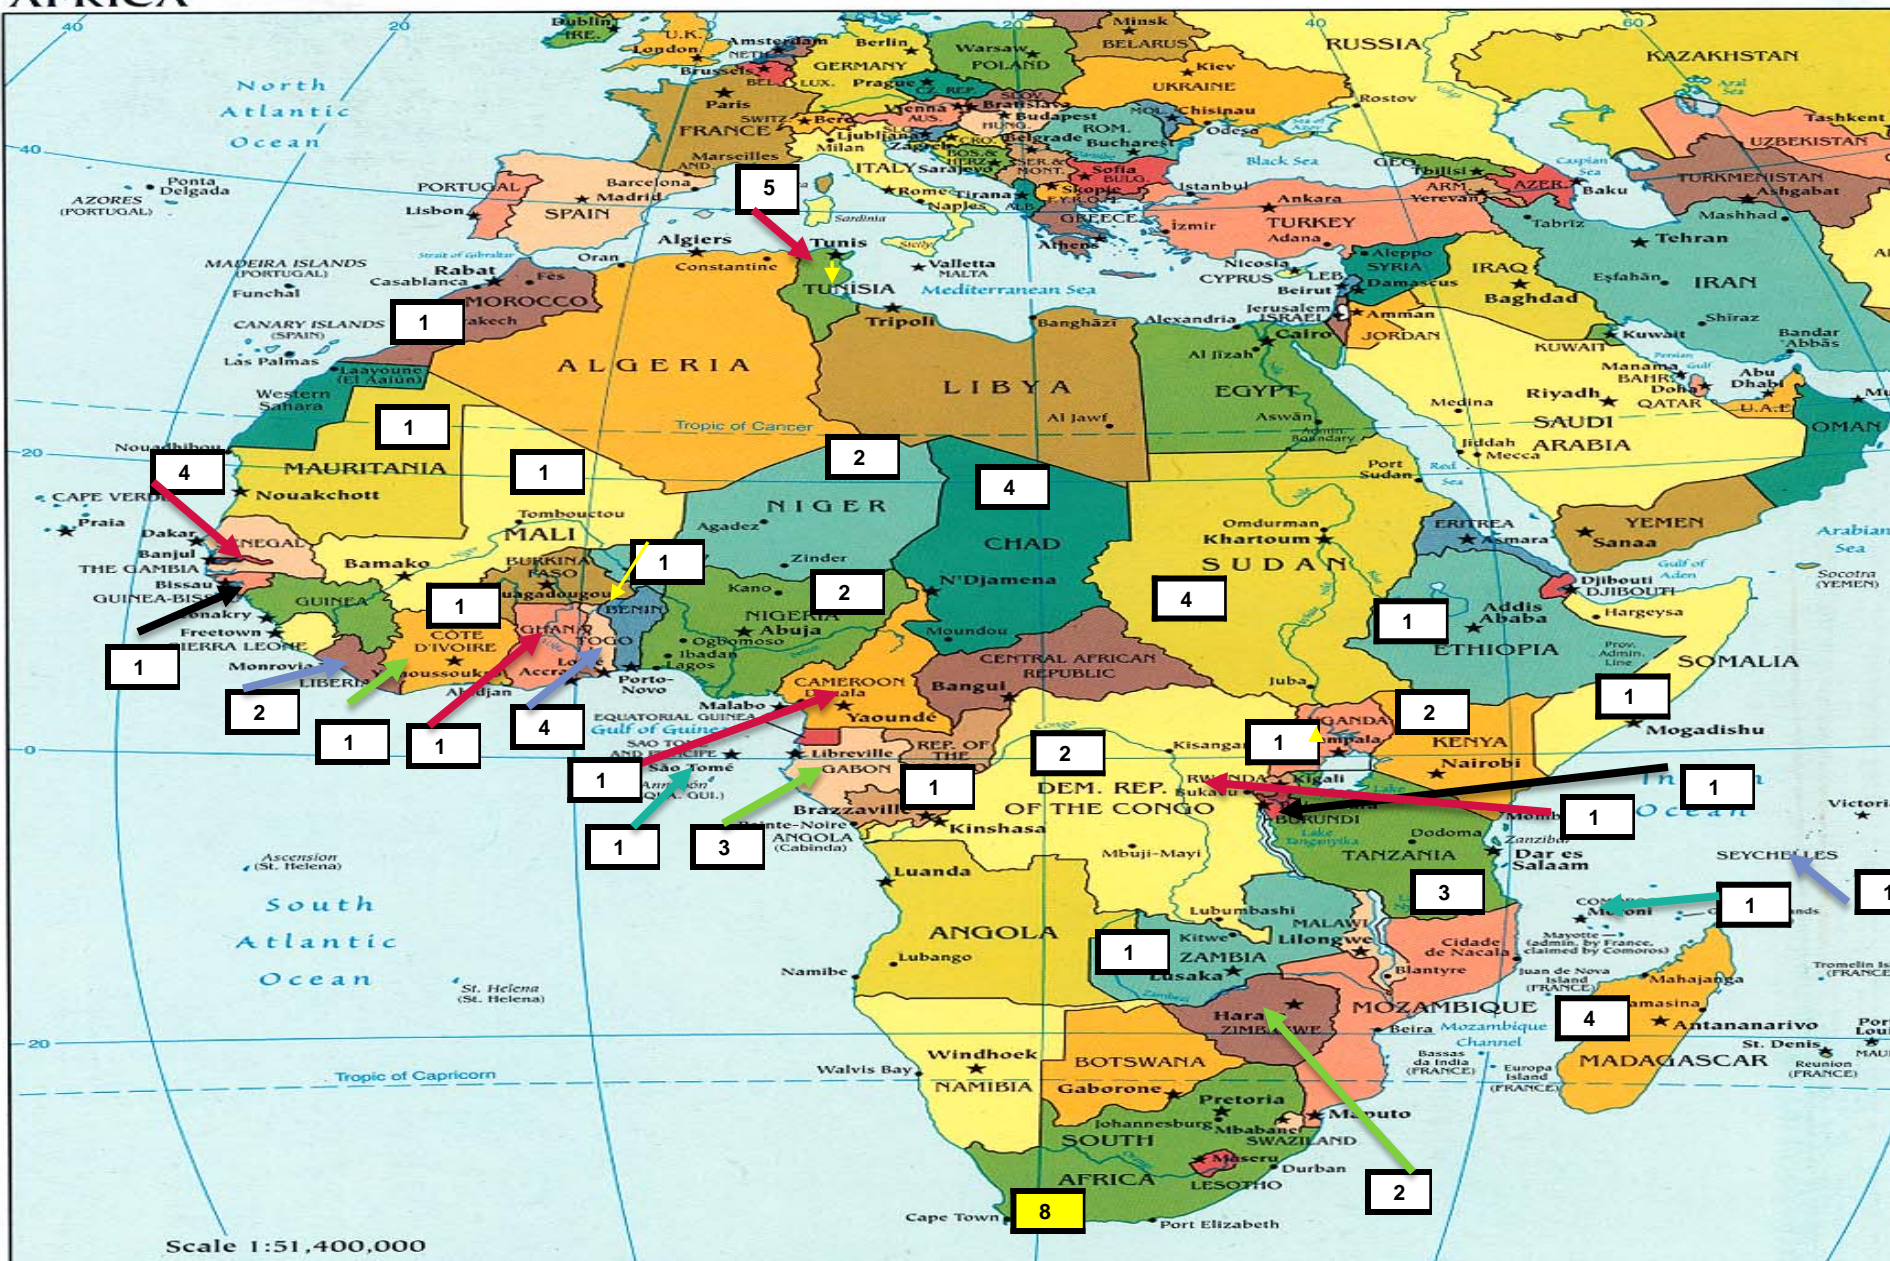

- Questionnaire objectives
 - For key specialized courses, assess
 - *capacity (courses offered and number of seats per annum)*
 - *entry requirements*
 - *qualifications standards*
 - Gather information on
 - *training facilities*
 - *training aids*
 - *students logistics*

AFI Training Database

- ❑ The data collected in 2009 has been incorporated in a database.
- ❑ It contains data collected during the survey.
- ❑ It is also be used to store information on courses run by each training organization and training demand by States, and aviation services providers who have responded to the initial survey.
- ❑ Additional responses received after the survey have been incorporated into the database

AFRICA

Training Needs - As of 30 March 2012 : 75 Responses from States, and Aviation Services providers from all over Africa

Update on the aviation training needs in Africa

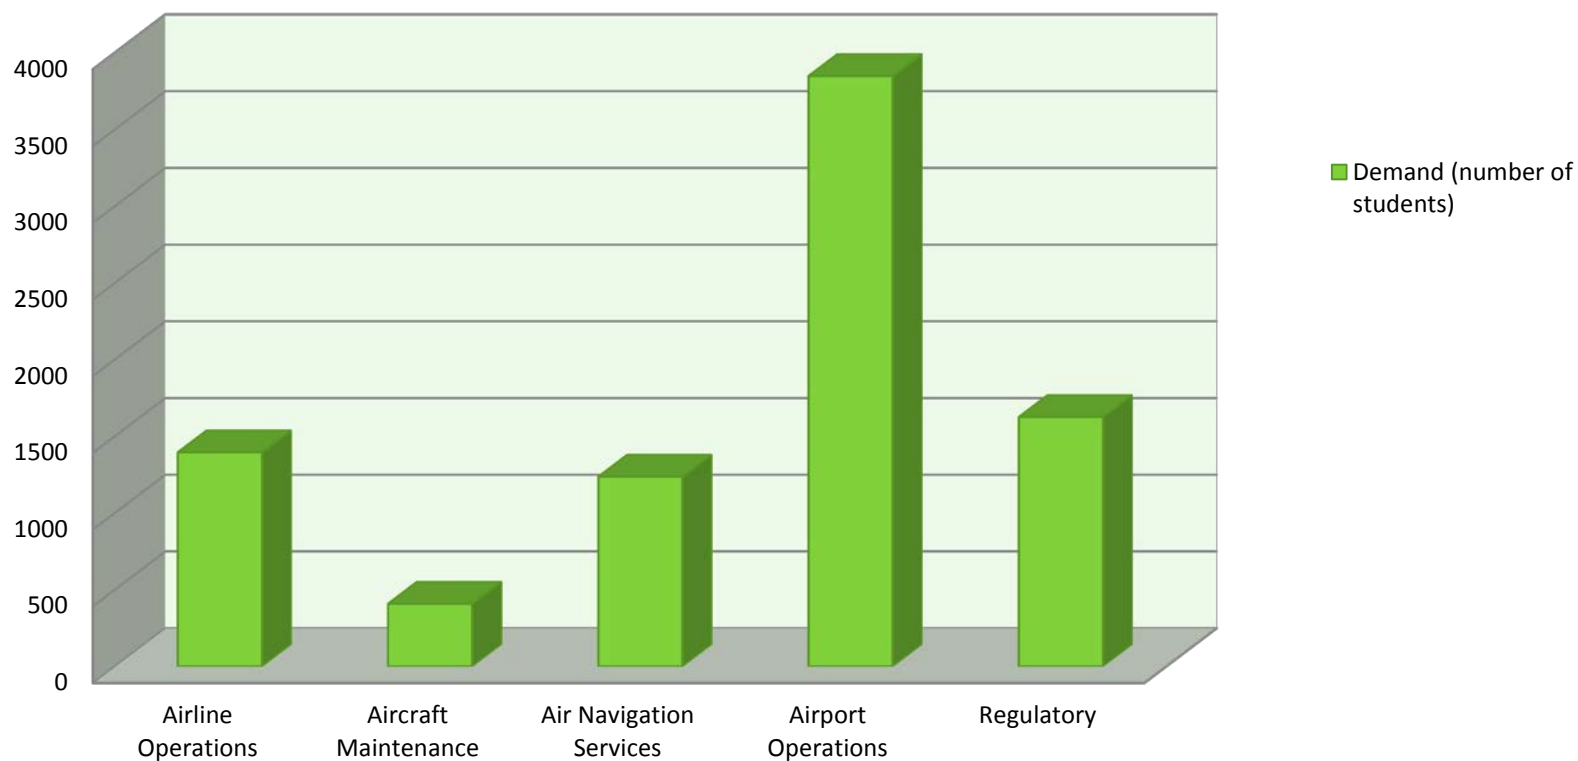

□ 75 Responses from 37 States

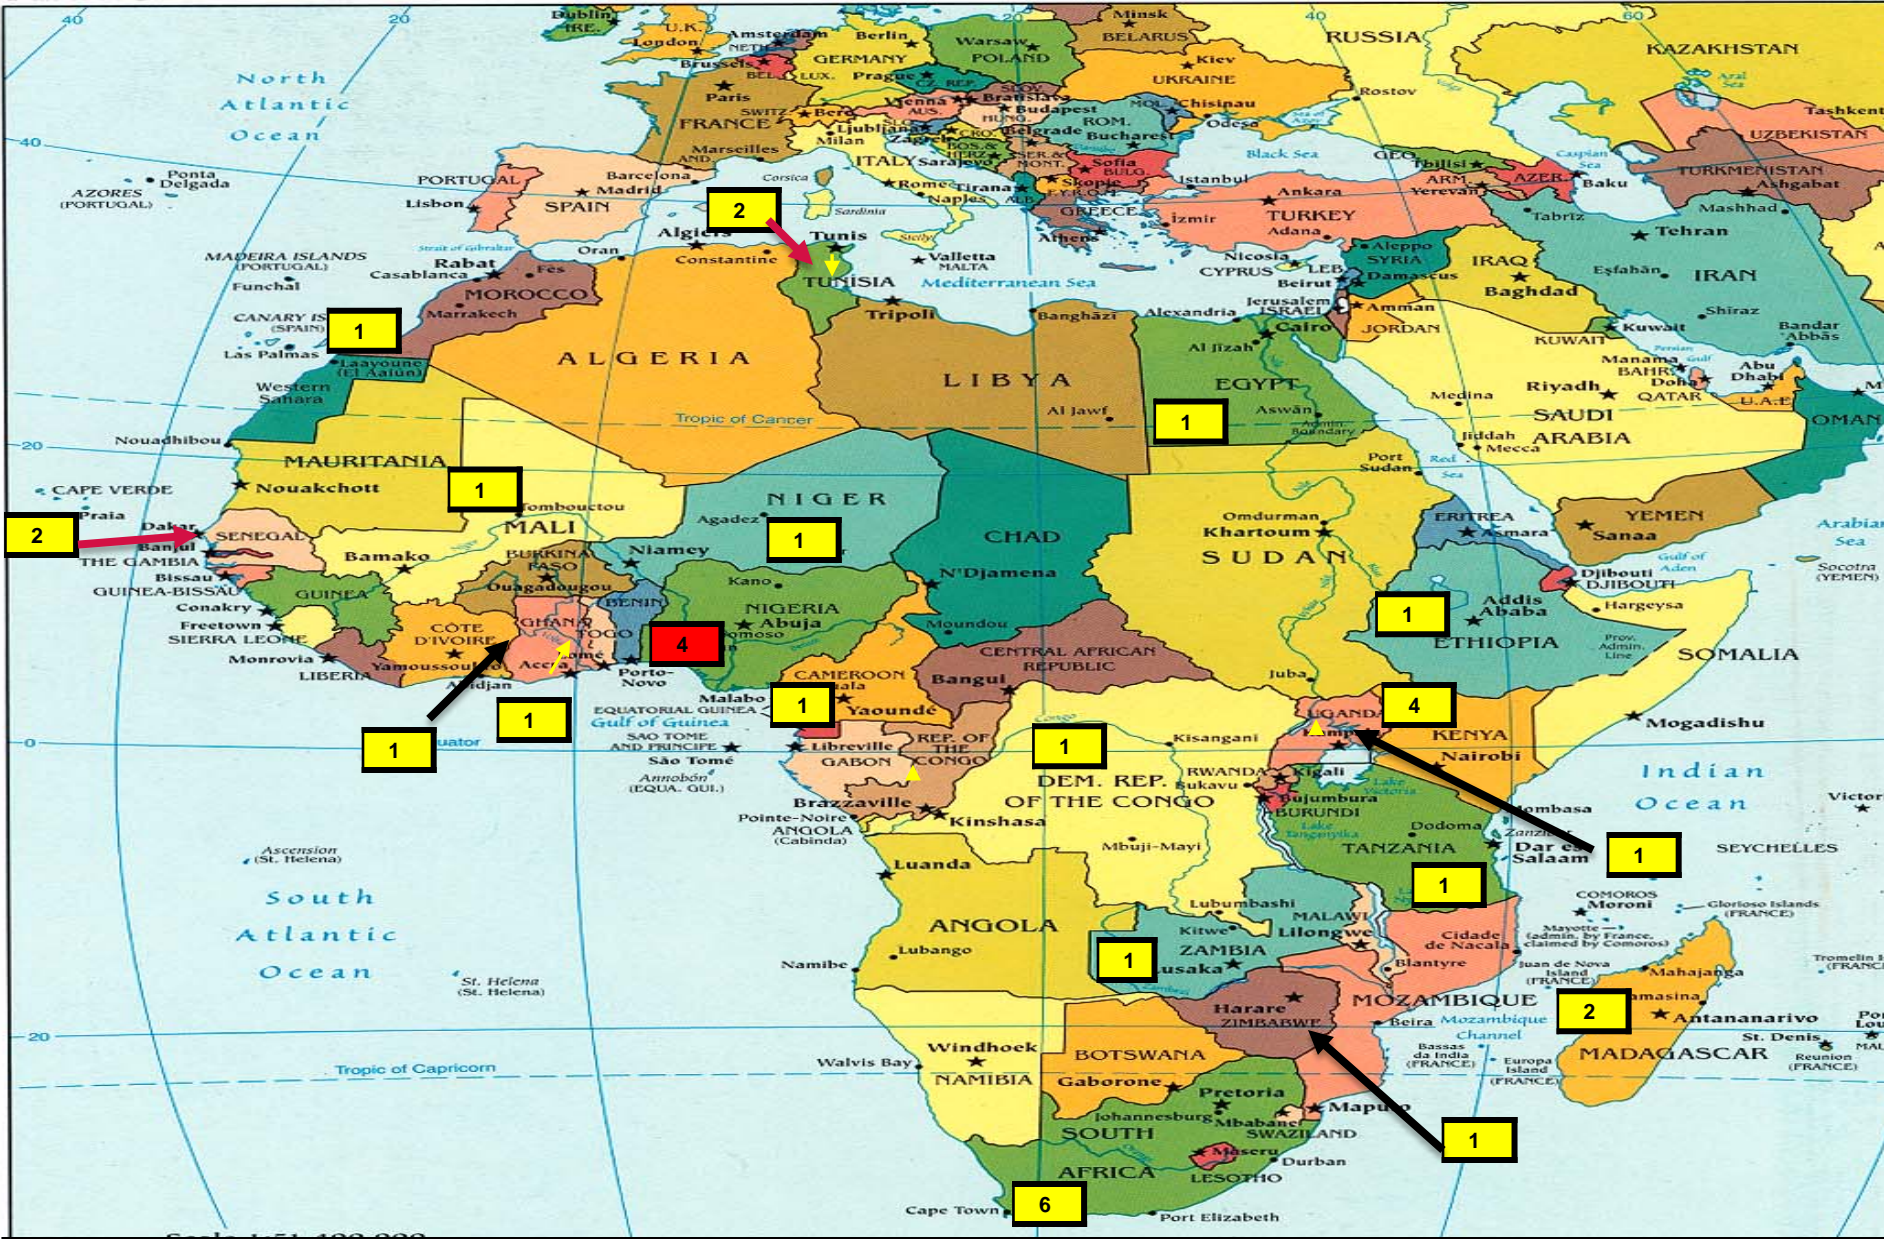

- Civil Aviation Authorities (Regulator only) : 23;
- Air Navigation Service Provider (ANSP): 6;
- ANSP and airport operator : 4;
- Airport operator : 15;
- Airline : 20;
- Airline and Approved Maintenance Organisation (AMO) : 2;
- Regulator and ANSP and airport operator: 4;
- Regulator and airport operator : 1.

Review of Responses - Needs

Overview of African training demand

AFRICA

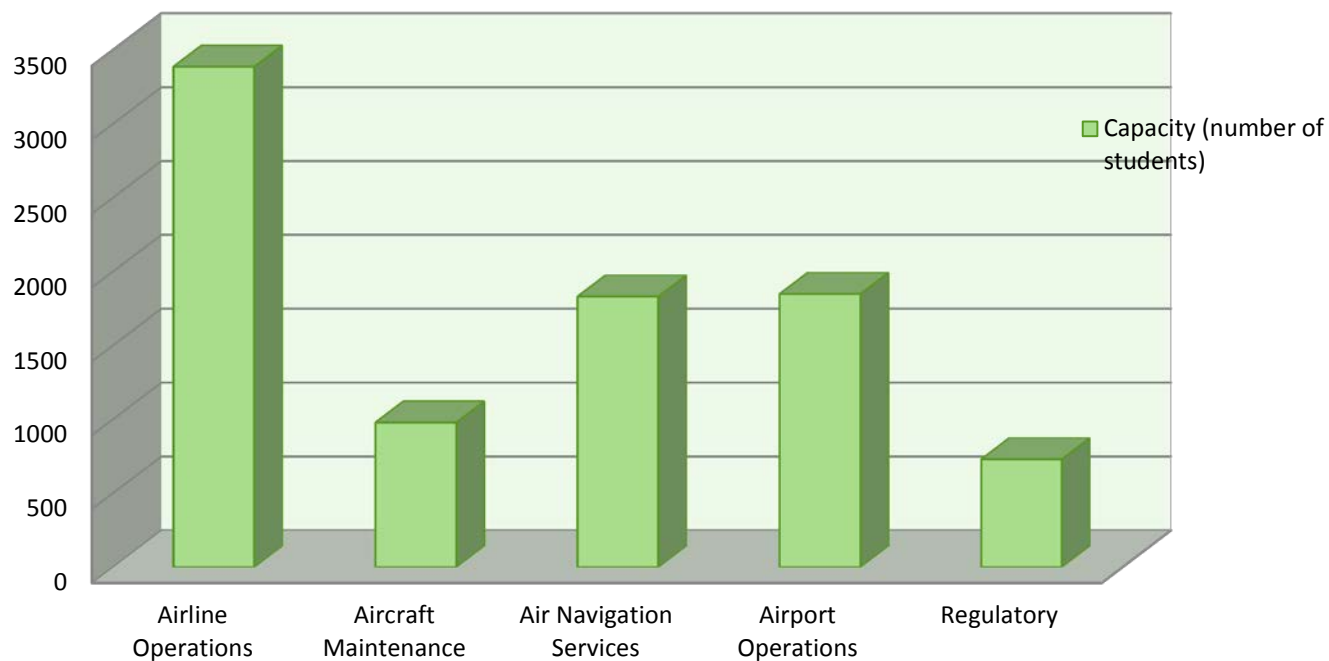

Training Resources: As of 30 March 2012, Responses received from 35 Training Providers

Review of Responses - Capacities

- 35 Responses from 17 States
 - ✈ 04 owned by Airlines;
 - ✈ 02 owned by airports operators;
 - ✈ 02 owned by CAAs;
 - ✈ 04 owned by ANSPs;
 - ✈ 23 autonomously owned.

Review of Responses - Capacities

Overview of African training supply

Review of Responses - Capacities

☐ Accreditation and Quality Control

- ✈ National accreditation systems as required by the CAAs or local education board.
- ✈ Some training centers : ISO, other national CAA, international organization including ICAO TRAINAIR.

☐ Instructional Staff

- ✈ More than 67% of the training centers have less than 10 instructors on a permanent basis
- ✈ Only 4 respondents have over 40 instructors on a permanent basis.

☐ Syllabi

- ✈ competency-based
- ✈ performance objective
- ✈ outcomes based approach.

☐ Training facilities

- ✈ 5-9 classrooms
- ✈ only 5 training centers having over 10 classrooms, simulators and laboratories facilities

AFI Training Database

Demand for aviation training in Africa, including for airport operations and management is more than the available supply

The AFI Training Database provides insight on the status of aviation training in Africa

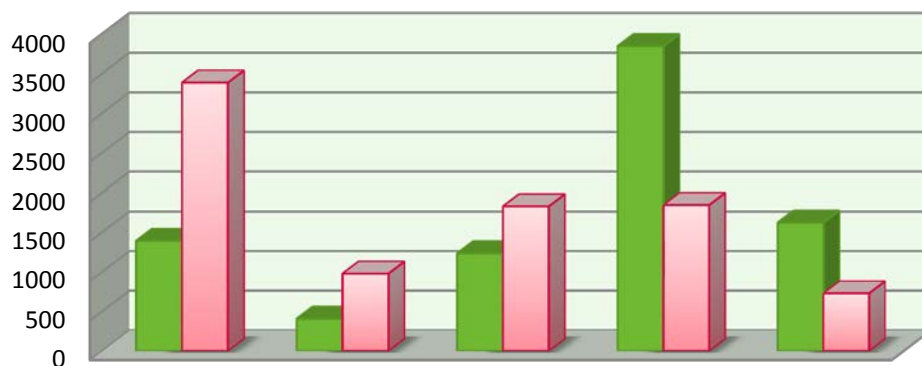

Absence of information on existing resources

Lack of harmonization of requirements

The Big Picture

Overview of African training supply and demand

Number of Students

■ Demand (number of students)

■ Capacity (number of students)

Airline Operations

Aircraft Maintenance

Air Navigation Services

Airport Operations

Regulatory

Type of activities

What does this tell us ?

- ❑ Demand for aviation training in Africa is more than the supply in regulatory and airport operations
- ❑ The apparent high capacity for training in airline and maintenance can be attributed to the fact that the airlines who responded are mostly those offering training

First Pan-African Aviation Training Coordination Conference, Niamey, 17-19 February 2009

- ❑ Initiated the process of implementing Recommendation 5/8 of Special AFI RAN
- ❑ Laid the foundation for the development of a framework for closer cooperation and harmonization of training requirements as well as standardization and quality assurance

Second Pan-African Aviation Training Coordination Conference, Cairo, 22-24 June 2010

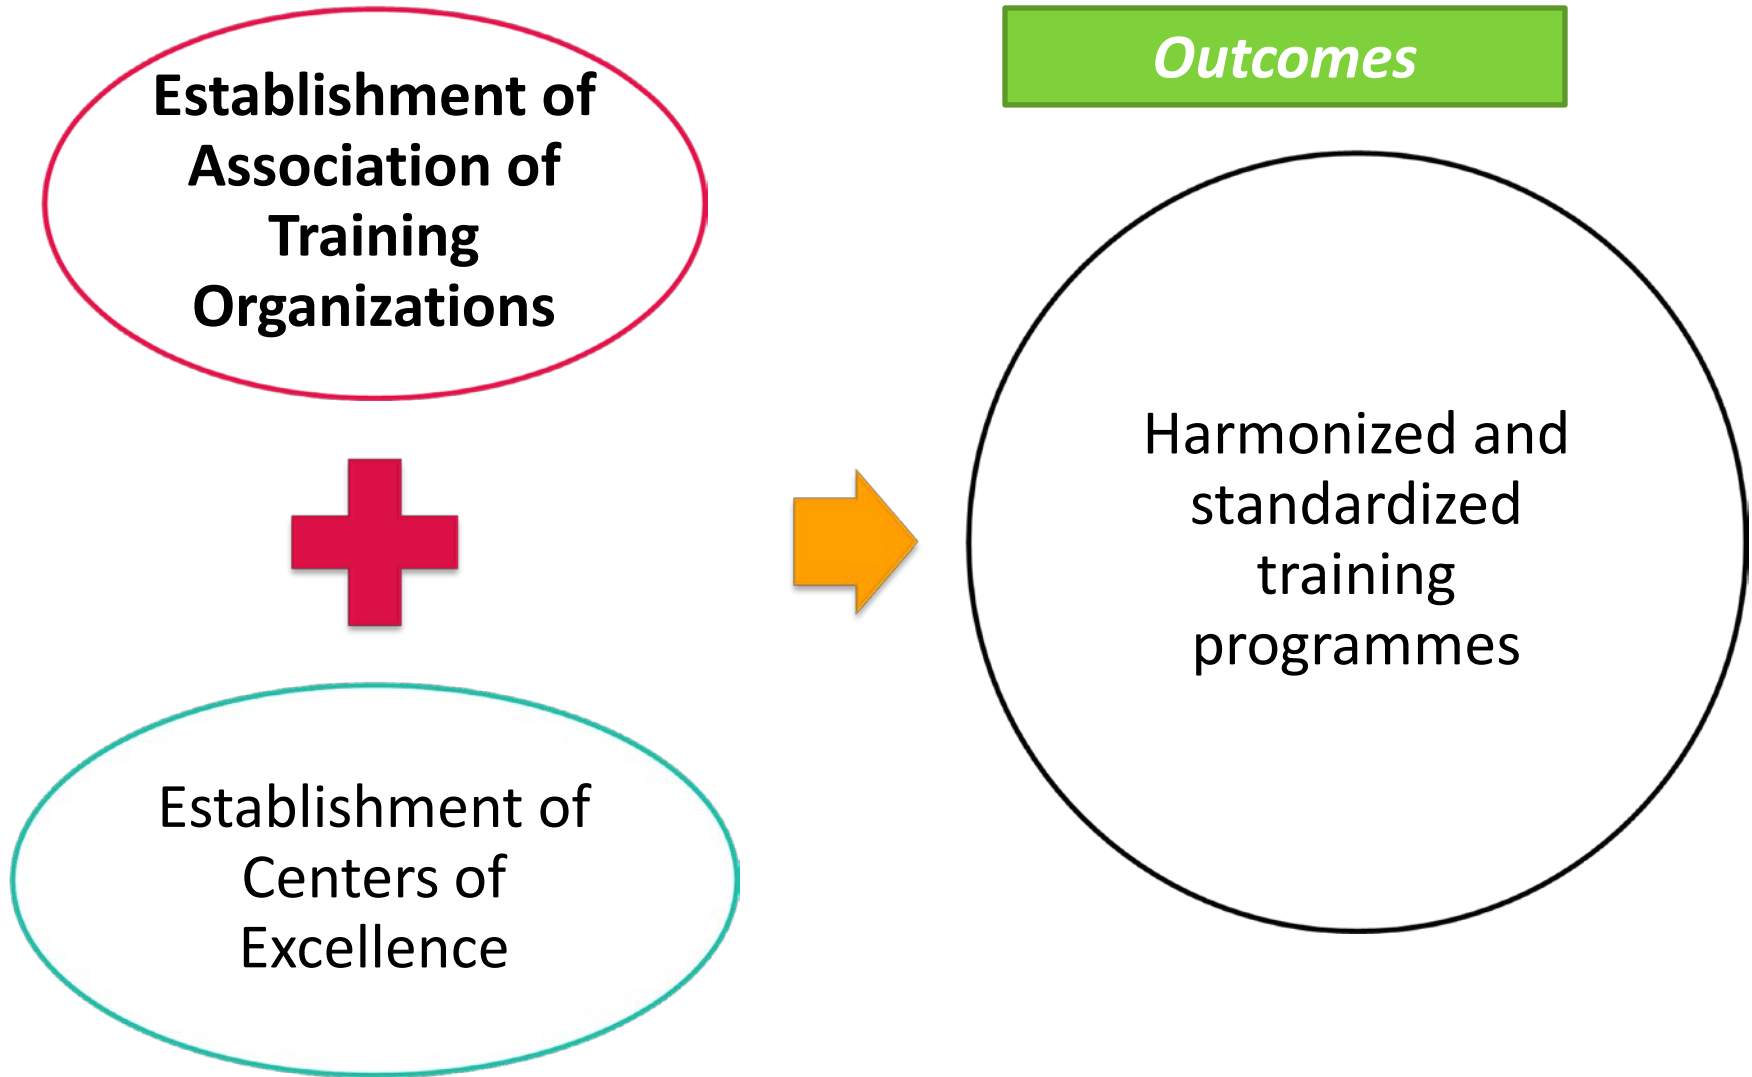

- ❑ Received the Report of the Report of the Training Experts Working Group
- ❑ Adopted a common strategic framework and action plan conceived to:
 - ✈ contribute to improve the availability of affordable and quality training programmes, harmonized and standardized throughout Africa, and,
 - ✈ promote of a common African Aviation training accreditation system recognized around the world

Third Pan-African Aviation Training Coordination Conference, Cape Town, 27-29 July 2011

- ❑ Reviewed the implementation of the action plan adopted by the 2nd Pan African Aviation Training Coordination Conference
- ❑ Developed a framework for harmonization of aviation training in Africa

Third Pan-African Aviation Training Coordination Conference, Cape Town, 27-29 July 2011

Third Pan-African Aviation Training Coordination Conference, Cape Town, 27-29 July 2011

Outcomes

Establishment of
Training
Advisory Board

**Adoption of criteria
for mutual
recognition of
diplomas, certificates
and degrees**

quality training
programmes, and a
common African
aviation training
accreditation
system

International Civil Aviation Organization

Thank you
