

The goals of the ICAO AFI Regional Workshop on the implementation of a State Safety Programme (SSP) are to:

1. Develop participants knowledge on the Standards and Recommended Practices (SARPs) related to the State Safety Programme (SSP), the ICAO SSP framework and its components, and related guidance material; and
2. Provide practical guidance on key elements of an SSP, including a State's regulation for an SSP, the establishment of acceptable levels of safety performance, and an SSP implementation plan.
