FRMS Symposium

Effective Reporting Systems and Responsibilities

Effective Safety Reporting Culture

- The Three "R's"
  - Relationship
  - Respect
  - Responsibilities

Fitness For Duty

- Essential Elements
  - Opportunity for rest
  - Use of rest opportunity
  - What do we do when it doesn't work as planned
- Responsibilities
  - Stakeholder's roles

Safety vs. Labor Relations
(How we can mess up a perfectly good program)

- Fouls
  - Pilots- Interrupt data collection and/or halt participation for industrial reasons
  - Operators- Use voluntary information for punitive reasons or other than intended purposes
  - Regulators- Fail to set rules to protect data, not hold everyone accountable
- How to avoid the "Fouls"
  - The Three "R's"
