Objet: Language proficiency requirements compliance notification.

Dear Sir,

The Civil Aviation Authority of Togo has notified on the 05th march 2008 a category "C" difference between the regulations and/or practices of TOGO and the language proficiency specifications required by ICAO. An initial implementation plan was then posted.

In April 2008, a placement assessment relating to the proficiency in English language was conducted involving civil and military pilots and air traffic controllers.

The regulatory framework relating to language proficiency requirements has been adopted since the 20th may 2008 and a transition period has been established in compliance with the ICAO Assembly resolution N° A36-11.

In the way to ensure the full compliance with the language proficiency requirement, ANAC-TOGO has signed a partnership agreement with Ghana Civil Aviation Authority (GCAA) for the administration of the English language proficiency assessment for licensing purposes.

Therefore, ANAC-TOGO has organized, in Lomé, in cooperation with language proficiency experts from GCAA, two sessions (from 29th November to 03rd December 2010 and from 7th to 11th march 2011) for the assessment of the English proficiency for flight crew members and air traffic controller who are holders of Togolese licenses. As far as all Togolese aviation stakeholders are aware of the real need to increase the level of safety, all military pilots and air traffic controllers were involved in these assessment.
