The goal for this conference:

To improve the well-being of
passengers and potential passengers,
cabin and cockpit crew

The objectives for this conference:

To get all member states of ICAO, airline companies, airline industry, airports and travel agencies and treatment facilities together to make fear of flying a general subject of discussion.

To create more understanding about fear, to initiate cooperation between aviation industry and aviation psychologists in dealing with fear in passengers and crew, and to share new developments and knowledge between experts in the field of fear of flying.

The objectives for this conference:

To produce a series of recommendations that will be submitted to ICAO for consideration in its on-going work.

The scientific input:

Workshops
Presentations
Poster session

The invited speakers:

Drs. Bram Gräber, Senior Vice President and
Area Manager Benelux of Air France-KLM

Dr. Silvio Finkelstein,
Fellow of the Aerospace Medical Association

The invited speakers:

Ms. Nancy McKinley,
